**SERVING CHILDREN WITH
SURGICAL NEEDS IN UGANDA**

UGANDA POPULATION: 39 MILLION
O4A OFFICE IS LOCATED @ ST. JAMES CLINIC, JINJA

One ⁴ Another
INTERNATIONAL

in Jinja, Uganda

'The idea that some lives matter less is the root of all that is wrong with the world.' Dr. Paul Farmer

O/A

SITUATION

- 50% of the population is under 18 years old
- Government hospitals are poorly equipped & funded
- Children can wait for months with no treatment and are left permanently disabled or face premature death

But...

- ***One4Another*** uses private Ugandan clinics & surgeons
- Surgeries are provided quickly & competently

... children get their lives back!

15%

OF GLOBAL POPULATION

EST. 1 BILLION PEOPLE
live with a disability

(World Report on Disability, 2011)

1 IN 20 CHILDREN

globally have a disability

(World Report on Disability)

of people with disabilities

LIVE IN DEVELOPING
COUNTRIES

(UN Development Program)

O4A Mission:

Lifelong disability in Ugandan children can be prevented or significantly alleviated through proper treatment.

O4A

90% 

of children with disabilities
in developing countries

DO NOT ATTEND SCHOOL

(UNESCO)

CHILDREN with disabilities are
3-4 TIMES

more likely to be abused than
children without disabilities

(UNICEF)

Disability mostly affects
WOMEN, the **ELDERLY** and
HOUSEHOLDS that are poor

(World Report on Disability)

Children who live in poverty who also have a disability are considered the 'poorest of the poor'. They have almost no way out of their situation.

Children with disabilities in Uganda:

Are more likely to:

- Be neglected
- Abused / Abandoned
- Malnourished
- Remain poor
- Believe to be cursed
- Called names
- Contract disease
- Live with chronic pain

Are less likely to:

- Go to school
- Receive medical care
- Escape crushing poverty
- Receive proper nutrition
- Avoid the detrimental effects of traditional bone setters
- Be let out of the house

Due to poor management children with relatively minor conditions such as fractures and infections come in with significant deformities and life threatening wounds, and can end up with lifelong disabilities. Our work aims at addressing mismanaged conditions and seeks to provide quality surgical care.

OUR HISTORY

Wendy Hayhoe + Glenn Pascoe

began O4A after volunteering
in Uganda back in 2012!

- 2012** HIRED COORDINATING NURSE (OLIVIA)
- 2013** BECAME REGISTERED CHARITY IN CANADA
- 2014** HIRED 2ND NURSE (TONI)
- 2015** PARTNERED WITH & OPENED OFFICE @ ST. JAMES CLINIC - 3 STAFF
- 2016** GLENN GOES FULL TIME WITH O4A
- 2017** EXPANDED PHYSIO & STARTED PLAY THERAPY PROGRAM - 5 STAFF

PLAY THERAPY + PASTORAL CARE

A close-up photograph of a person's lower legs and feet. The person is wearing blue denim jeans that are rolled up at the ankles. The left leg is bare, while the right leg is fitted with a dark brown, leather-like prosthetic that covers the entire lower leg and foot. The prosthetic has several black straps with buckles. The person is standing on a light-colored, textured ground. A yellow horizontal bar is overlaid on the right side of the image, containing white text.
